Partner Agencies

Through the NHMWG, Nevada ensures that mitigation efforts are strategically planned and funded to protect life, property, and critical infrastructure from natural and human-caused hazards.

Key Responsibilities:

- **Project Proposal Review:** Evaluates proposals for Hazard Mitigation Assistance (HMA) and prioritizes funding recommendations.
- **Risk Assessment:** Integrates hazard vulnerability assessments into plan development and project selection to build more disaster-resistant communities.
- **Plan Implementation:** Encourages and advises local and regional governments and private sector entities to develop hazard mitigation plans.
- **Grant Funding Recommendations:** Review HMA proposals, prioritize funding, and assist NV OEM in preparing proposals to FEMA.
- **Disaster-Resistant Communities:** Promote strategies that reduce risk and enhance resilience across Nevada's communities.
