Nevada Mitigation Ranking Guide	
Applicant:	
Reviewed by:	
Project Type:	
Type in the full name of the project:	

Risk Reduction	Yes	No
Does this project reduce risk to life and/or property?		
Does this project reduce damage to homes, business, public buildings or critical infrastructure?		
Would the risk reduction be expected to last many years?		
Does this project increase critical infrastructure resilience?		

Cost Effectiveness		
Are the costs clearly explained and justified?		
Does this project reduce the likelihood of future disaster-related repair, cleanup, or rebuilding costs?		
Is it clear who will maintain the project and how?		
If this project needs to be maintained over time, is it clear who will be responsible and how it will be funded?		
Is the jurisdiction committing to provide a least of 25% Match? ("Proposed non-federal share" greater than or equal to 25%)		

Project Quality and Feasibility		
Is it clear exactly what will be built or implemented?		
Does the project appear technically reasonable and achievable?		
Are maps, designs, or supporting materials provided?		

Readiness to Proceed		
Does the project have a 30% or higher conceptual design?		
Are environmental or permitting issues identified and manageable or have they been considered in the application?		
Is the proposed schedule realistic?		
Does the applicant demonstrate the capacity to successfully manage and complete this project?		
Is the project implementation ready pending approval?		
Does this project increase critical infrastructure resilience?
