Get help navigating some of the challenges and resources available to address the COVID-19 pandemic. FEMA's resource roadmaps are based on anticipated COVID-19 recovery challenges in key topic areas. The roadmaps:

- Outline potential solutions and applicable resources, including federal funding support and technical assistance.
- Describe how to use CARES Act and other federal programs to help solve recovery challenges, avoid potential duplication of benefits, and reimburse associated costs.
- Inform decisions on how to apply funding to maximize local recovery outcomes.

The roadmaps are for **informational purposes only** and are compiled with publicly available information or with the information provided by sources that are publicly obtained and should be viewed as only a starting point for individual research. Please directly consult the provider of a potential resource for current program information and to verify the applicability and requirements of a particular program.

COVID-19 Resource Roadmaps Overview :
